LIZZIE SUNGLASSES

48MM LENS 5 1/2"W 1 7/8"H

We stumbled upon some tinted vintage safety glasses in Bushwick in 2008 and thought that they not only looked rad but were designed incredibly well. After wearing them around for a few weeks, and fielding countless questions about where we found them, we've updated and modified the design in hopes of sharing these classic shapes with everyone. We like to think of them as a modern spin on NoIR sunglasses. Each pair is impact resistant (naturally) and comes with its own custom case.

- Crews' Duramass scratch-resistant coating
- ANSI Z87.1 Safety Standard compliant
- 99.9% UV Protected
- custom urethane dip for colored earpieces*
- custom plastic case

*Please note that each pair is individually hand dipped in urethane so variations in color and texture occur on each pair of sunglasses.

Smoke Gray Lens/Yellow	\$45
