### Story:

Coat racks are a staple in many entryways, but they can gobble up valuable floorspace in a small apartment. For that reason we designed Arthur, which hangs flush to the wall and takes on more capabilities than a regular old set of hooks. With cubby holes in various shapes and sizes, consider it a landing place for shoes, coins, keys and whatever else you have in your pockets at the end of the day. Arthur is equipped with rotating Häfele hooks and there's no assembly required (besides the hanging part, of course). Simply secure the cleat to your wall at a stud and slide the shelf on top.
