SIZE	HIP	WAIST
XS	35.5	25
S	37.5	27
M	39.5	29
L	41.5	32

Story:

Let's face it: none of us are getting younger, WINTERCHECK FACTORY™ staff included. Every time we find a simple and fun skirt, it's either too short or has a waistband that's too wide, and we're so over accidentally flashing people on the street or looking like we've been hitting up the racks at Forever 21 (but we're not over using the term "so over", of course). Enter the Sarah Skirt: it's short (but not too short) and has a narrow, fitted waistband so you can wear it high up on your waist or pull it down a bit for a lower-slung look. Sarah has silky hip pockets and a vertical stripe pattern, because, well, we know how y'all feel about horizontal stripes.

Sizing Tips:

For HIP, stand with your heels together and measure around the fullest part of your hips.

For WAIST, measure around your waistline at the level where you're supposed to wear your pants (but probably don't). Then add about 0.5" for a more accurate fit.
