### Story:

In a wholehearted effort to avoid purchasing unflattering swimsuits for the rest of our lives, we decided to design our own. After about a month of research and testing out vintage suits from eBay, we decided that the keys to a great fit were cinching at the waist, a lower cut at the thigh and quality composition in the nylon. Anna has a built-in shelf bra, adjustable straps, and a hidden zippered pocket for small items like keys and cash.

### Sizing Tips:

For CHEST, lift your arms and measure around your body, crossing over the fullest part of your bust.

For WAIST, measure around your waistline at the level where you're supposed to wear your pants (but probably don't). Then add about 0.5" for a more accurate fit.

For HIP, stand with your heels together and measure around the fullest part of your hips.
